

# *The Wonderful World of Transport*

(or)

“Gee, I sure wish I had a  
truck!”

Beats walking in the snow... unless  
they're heading to the butcher

---

Ditto, with an upgraded vehicle

---

The upside-down license plate seems fitting, somehow

---

If only Johnny Appleseed could see this one

---

Sometimes you actually feel sorry for a car

---

With smaller logs, you can add a passenger

---

Or, skip the logs and add more passengers

---

And then there's times when you  
don't even have a car

---

Economical, plus a great test of your balance

---

# Safety upgrade: Pith helmet

---

# A real helmet this time

---

When you get stuck in traffic, you can do the limbo while you wait

---

# Current record holder: Most pigs

---

# Current record holder: Most chickens

---

# Current record holder: Largest load, most wheels

---

And then there's times when you don't  
even have a motorcycle

---

# Triathlon training, plus dinner for two months

---

And then there's times when you  
have a truck, but...

---

Can't imagine how this load could ever break loose, can you?

---

# Truck and trailer, and it still looks iffy

---

## Current record holder: Largest load compared to size of vehicle

---

Is that a passenger on top? How low are those wires? Is he grounded?

---
